

European Association for the  
Development of Renewable Energies,  
Environment and Power Quality

Vigo, 30<sup>th</sup> November, 2014

REFERENCE OF THE PAPER: 267

**TITLE and AUTHORS: Hydrokinetic Micro-Power Generation in Small Rivers - a New Approach**

D. Norta, S. Ramanathan , S. Sachau, H.-J. Allelein

I would like to thank to the authors for proposing a paper for the “**International Conference on Renewable Energies and Power Quality (ICREPQ’15)**”. The number of papers that can be presented in the Conference is limited. For this reason, the International Scientific Committee found it necessary to decline some of the papers. This was a difficult task in view of the quality of the submitted proposals. Each digest/provisional full paper was evaluated by two referees, peer review, and the papers submitted were selected on the following bases: **originality, interest, quality, elaboration, references and objectives/conclusions**.

Take into account these bases the members of the International Scientific Committee have expressed a global conclusion about each paper like: **excellent, good, average, poor, bad or very bad**, and sometimes they send us some remarks for the authors.

After the Reviewing Process, I must inform you that the **ICREPQ International Scientific Committee** has reviewed your paper and it **HAS BEEN PROVISIONALLY ACCEPTED** for the presentation at ICREPQ’15.

You need to improve your contribution following the remarks of the ICREPQ ISC Members and send it to us before January 10<sup>th</sup>, 2015 then, if you have take into account the remarks, surely it will be accepted for to be presented at ICREPQ’15 that will be held in La Coruña (Spain), from 25<sup>th</sup> to 27<sup>th</sup> of March, 2015, for to present your paper.

Best regards.

Manuel Pérez-Donsión  
Chairman of the ICREPQ Steering Committee

Fiscal Address: **C/ Ramón Aller, 83 ; Entreplanta C, 36500 Lalín, Pontevedra (Spain)**
