

# JOURNÉES SL2R

05-06.12.2019

## Belval Campus, Maison du Savoir

This rotating conference — between Strasbourg, Lorraine, Luxembourg, and Reims — gathers two to three times a year mathematicians from the four universities working in **representation theory and harmonic analysis**.

The idea is to allow young members of the group to present their results, without excluding more experienced mathematicians.

### Speakers

- Erik van den Ban (Universiteit Utrecht)
- Wolfgang Bertram (Université de Lorraine)
- Sourav Ghosh (Université du Luxembourg)
- Bernhard Krötz (Universität Paderborn)
- Salah Mehdi (Université de Lorraine)
- Rupert Yu (Université de Reims)
- Ines Kath (Universität Greifswald)

**Organisers:** Martin Olbrich, Yannick Voglaire, Guenda Palmirotta
