

# CALL FOR PAPERS

Journal of AI Law  
and Regulation

## JOURNAL OF AI LAW AND REGULATION (AIRe)

AIRe reports on key legislative developments in the governance of artificial intelligence (AI) in jurisdictions around the world. The journal is an impartial platform for discussing the role of law and regulation in managing the challenges and opportunities of AI's impact on society. AIRe covers diverse fields of law which are affected by AI, such as privacy and data protection, IP, anti-discrimination law, human rights, consumer protection law, as well as sectoral legal developments, eg in healthcare, financial services, transport, agriculture. The journal also analyses important judgments that shape the field of AI law and regulation, in particular those by the international courts and tribunals, regional courts (eg European Courts), and higher national courts. AIRe is published quarterly and is available in print and online.

For the upcoming issues of AIRe, we welcome submissions of articles, opinions, case notes, country reports and book reviews on the abovementioned topics.

To guarantee AIRe's high-quality standards, all articles are subject to double blind peer review before acceptance for publication and are required to conform to the author guidelines available at: [www.lexxion.eu/aire-authors](http://www.lexxion.eu/aire-authors).

### Submission Deadlines:

To be considered for publication in the inaugural issue of AIRe, coming out in the first quarter of 2024, please send your manuscripts by **15 December 2023**.

For subsequent issues, we accept submissions on a rolling basis.

Please send your submission to the Executive Editor.
